Title: Open Wireless Architecture for Fourth Generation Mobile Communications
Application No. 10/709,485
Art Unit: 2617
Notice Date: August 25, 2006

Date: November 6, 2006

Dear Mr. Fox and Mr. Appiah:

In my official response to your office action on October 18th, 2006, I enclosed "The Amendment to the Claims" at the end of the response. However, when I checked the USPTO website today, this "Amendment to the Claims" is missing in PAIR.

I do not know why it got lost in your database, and therefore resend this part of "Amendment to the Claims" to make the response complete.

I hope this time everything is OK, and please let me know if any questions.

Yours truly,

Prof. WEI LU (Willie), Ph.D.
Member, U.S. ITU WP8F Delegation
Architect and Founder, OWA Platform
1218 Bubb Road
